N.B. When any member of staff considers that non-urgent corrective action is necessary but that action lies outside the scope of their authority, they should refer the problem to their Line Manager in the first instance.

WHENEVER AN EMPLOYEE IS AWARE OF ANY POSSIBLE DEFICIENCIES IN HEALTH AND SAFETY ARRANGEMENTS SHE/HE MUST DRAW THESE TO THE ATTENTION OF THE SITE MANAGER.

Please note the following:-

1. It must be realised that newly appointed employees could be particularly vulnerable to any risk and it must be ensured that all relevant health and safety matters are drawn to their attention at induction by their Line Manager.
2. Whilst it is a management responsibility to instruct employees in safe working procedures in relation to their posts and workplaces, employees may from time to time find themselves in unfamiliar environments. In such cases, the employee concerned should be particularly alert for hazards, and whenever possible, ensure they are accompanied by a person familiar with the environment or that they are advised of specific hazards.
3. All volunteer helpers and supply teachers will be expected, as far as reasonably possible, to meet the same standards required of employees.

RESPONSIBILITIES OF STUDENTS

Lettings

The Headteacher and Governors must ensure that:

2. fire escape routes and exits are clearly marked for the benefit of unfamiliar users of the building, particularly during the hours of darkness;
3. hirers of the building are briefed about the location of the fire escape routes and fire alarm call points. Notices regarding emergency procedures should be prominently displayed;
4. hirers using any equipment or facility provided by the school are familiar with its safe use and, if necessary, briefed accordingly;
5. arrangements are made for checking the security and condition of the premises and equipment used after vacation by the hirer or his/her staff;
6. formal agreements are in place with regular or long-term hirers and other users.
7. hirers and other users are aware of procedures to report hazards and of their duty to report these.

2. These procedures will be updated as appropriate.
3. The log book for the recording and evaluation of practice and evacuation drills is kept with the Premises Manager.

Fire Prevention Equipment

Arrangements are in place to regularly test the fire alarm and associated equipment. This testing includes regular visual inspection of fire extinguishers and physical testing of the fire alarm system. Essential maintenance identified as being necessary during testing is undertaken immediately after testing whenever possible.

5. Accident reporting is normally undertaken at the time of first aid being administered. In the event of treatment being administered through the Medical Room the Official Accident/Incident Report Google form must be filled in unless the injury is minor. In the case of minor injuries the First Aid log must be filled in. All incidents (serious and minor) must be recorded in the First Aid log.
6. The person responsible for administering the accident reporting procedure, the notification of serious accidents causing death or major injury and dangerous occurrences is the Premises Manager. In practice this is delegated to the Welfare Assistant.
7. The first aid arrangements for off site activities are the responsibility of the activity organiser, who is required to liaise with the Welfare Officer.

N.B. Any employee rendering first aid to the best of their ability is indemnified by the school's insurance.
