### Main Screen

Once logged in, you will see the main screen in Edulink One. The information held in your account relates to your child/children. You will be able to navigate through the different sections of Edulink One by clicking on the icons, e.g. to view your child's attendance, click the **Attendance** icon.

Please see an example of the main screen below. The options may vary between schools as not all schools use all Edulink One's functions.

If you have more than one student in school, it's easy to switch between each one. Just select which child you would like to view in the top right-hand corner. If you can't see all your children that attend the same school, please contact your school.

This bar shows you what **lesson** your child is currently in, along with the next lesson in their timetable.

The **messages** button will let you know if you have any unread messages from the school.

### Behaviour

The behaviour button will give you access to **view behaviour records, and lesson behaviour**, which have been assigned to your child.

### Achievement

This section is where you can view information on positive achievements that have been awarded to your child. Very similar to the behaviour section, you are able to see who awarded the points and the reason for the award.

### Timetable

Parents and students both have access to this section, which allows you to view your child's school timetable. This shows you information on what lessons your child has each day and who the teachers are for those lessons. \* Please note the timetables be active from the first day back at school of the new academic year.

### Homework

The homework section operates via Google Classroom. This is a visual of the homework only. Students and parents can see what homework has been set when it is due and they can also mark it as completed. Homework will be set by staff on
